

FOUNDRY DIVISION

- **Molds and Toolings, Co-Design and Construction + Low Pressure Casting 3D printing rapid prototyping**

- **Aluminium Castings: sand/gravity/die castings**
Alloys: EN AB-42100/EN AB-42200/ EN AB-43100/EN AB-44100/EN AB-45300/ EN AB-48400/EN AB-51100/EN AB-71100/ UNI 3054

Single Casting weight up to 600 kg

- **Iron Castings: gray/ spheroidal/ Crom-Hard® and Ni-Hard antiwear alloys 0-100 kg up to 1,000-10,000 kg**

- **Forged Parts: max Ø 5.250 mm, max lenght 13.000 mm, max ingot weight 12.000 kg**

Materials: Carbon and low-alloy steel/ super alloys steel/ duplex and super duplex steel aluminium alloys/ titanium alloys/ asustenic and martensitic steel

- **Sintered Parts**
